

# Research Volunteers Needed

---

## What is this study about?

We are studying differences in preferences and actual involvement in leisure activities in children with **SMA**.

---

## What do my child/I have to do?

Fill in a demographic survey along with a subjective survey about the types of activities your child does/would like to do. Your child will also fill out their own survey about their activity level and preferences in terms they will be able to understand. Instructions will be provided along with the survey.

---

## How long does it take?

The surveys require 45-65 minutes in total.

---

## Where is the study done?

We will be sending questionnaires by mail to your home address. All data will be compiled and stored securely at 645 North Michigan Ave in Chicago, IL.

---

## To qualify for the study:

Your child has to be genetically diagnosed with SMA and be between the ages 2-12 years.

---

## For more information please contact:

**Lauren Scott**, SPT at **847-502-5506** or email her at **[Lauren-scott@northwestern.edu](mailto:Lauren-scott@northwestern.edu)**

**Note:** Agreement to be contacted does not obligate you to participate in this study.
